

CAR WASH SERVICES & EQUIPMENT, LLC

Celebrating 35 Years of Service

JUST LISTEN TO SOME OF OUR CUSTOMERS!

The level of service that Frank DiTommaso and Car Wash Services & Equipment provide surpasses that of others in the industry. His 35 years of hands-on experience as an owner/operator and with site & equipment selection, installation and service is unrivaled. Above all, Frank is a fair and honest guy, someone that I consider a friend. He founded Car Wash Services and Equipment on the basis of knowledge, talent and a passion for the business. As a customer, I can attest that the customer is, and always has been, Frank's top priority.

- Alan Kamal, Kamal's Car Wash

I was impressed with Frank DiTommaso from the start because he was an owner/operator. I respect that he was successful with his own washes and that he applied that knowledge to establish Car Wash Services and Equipment as a distributor. He understands the challenges that face both sides of the business and he sells equipment from only the top manufacturers to meet that challenge. Frank is the Car Wash King!

- Ken Ouellette, Ipswich Car Wash

I have been doing business with Frank DiTommaso since 2001. During this time I have built two new to industry car washes. Frank was an integral part in site selection and permitting as well as a general sounding board during the process. His experience and knowledge of the equipment he sells and of the car wash business in general was invaluable to me. Also, I feel that with any company, service starts at the top. Simply put, "Frank gets it". He and his staff will do whatever it takes to make sure that any operational down time is minimized. Whether he has to pull someone from an installation or take the service call himself, it gets done. As an operator that is extremely important to me.

- Armie Sancartier, Clipper City

Frank DiTommaso cares about the customer and the vendor and he does what he can to make it come together in the middle. I know that's what it takes because I run my business the same way. To Frank and his team at Car Wash Services & Equipment, service is Second to None, and at the end of the day, that's what is most important. When I was in Florida, my compressor went down at a site with a competitors' equipment. I called Frank. Without hesitation, he ran to Home Depot, put a compressor on his credit card and installed it at the site. Pure and Simple, Service = Frank. How do you not participate in that?

- Charles Desfosses, Volume, Inc.
